STYLE

CARBON FIBER ENGINE COVER

The clamshell bonnet is a continuation of the fearless design philosophy of the DBS. It provides a piece of theatre when hinging forward to reveal a panoramic view of the magnificent V12 engine beneath. The Carbon Fiber engine cover gives you the opportunity to enhance this experience even further.

The stunning Carbon Fiber engine cover is fitted perfectly to mold and enhance the powerful and sporting aesthetic of the engine and under bonnet area, complimented further by an additional Aston Martin Wings badge that sits harmoniously at the forefront position within the Carbon Fiber.

TITANIUM EXHAUST – BRIGHT FINISHER

The DBS Titanium exhaust kit uses motorsport grade titanium to give high strength from a thinner gauge of material, bringing lightweight benefits while withstanding high temperatures.

The material gives an enhanced “raspier” character to the exhaust note, naturally producing a more aggressive sound from the quad tailpipes.

VISION PACK

The Vision Pack is a dance of light and carbon fiber. Illuminated treadplates softly glow with the Aston Martin Wings upon the opening of the door. Gloss carbon fiber wheel center caps and black wheel bolts draw the attention to the perpetual motion of your wheels.
